

Projects led as project director

P1 PN2 CNMP – Partnership, contract 251/2014, Mini-patterns, the solution for video coordination of textile manufacturing process, 2014-2016

P2 PN2 CNMP – Partnership, contract 260/2014, Spatial electromagnetic shields based on differentiated functionalization with nano/micro- particles, 2014-2016

P3 ERA NET CrossTexNet, contract 7_071_2012, Innovative technology for multilayer EMI shields based on spatial fabric (3DShields), 2012-2014

P4 ERA NET CrossTexNet, contract 7_058_2012, Core conductive fibres based ESD protective garments (ESDGarm), 2012-2014

P5 PN2 – Partnership, contract 179_PCCA_2012, ESD garments made with core conductive fibres bilayer knitted (GarmESD), 2012-2016

P6 PN2 CNMP – Partnership, contract 72-173/2008, Automated video system with high degree of interchangeability for metrological calibration of measurement equipment, 2008-2011

P7 Grant CEEX Module I – INFOSOC, contract 137/2006, Computerized system for interactive learning based on high-speed multitask algorithms developed on reconfigurable platform for virtual laboratory applications, 2006-2008

P8 Grant CEEX Module I – AGRAL, contract 51/2006, Intelligent irrigation system of precision implemented on automates structures with circular or linear movement, 2006-2008

P9 Grant CEEX Module III – CNMP, contract 194/2006, R/D partnership development in order to promote European projects in the field of intelligent video-inspection of textiles, 2006-2008

P10 Grant AT, year 2004, topic 81, cod CNCSIS 330, contract 33371/2004, Distributed measurement system developed by means of virtual instrumentation

P11 Grant AT, year 2003, topic 57, cod CNCSIS 330, contract nr. 33557/2003, Distributed measurement system developed by means of virtual instrumentation
